Preliminary Items: Raw Kit Inventory Purchase Records

Kit purchased June, 1984

Initial inventory of glass, raw Styrofoam billets and urethane foam sheets, welded parts, aluminum tubing, raw metal sheet, hardware, epoxy, fillers, etc. All items were inventoried. QAC notified of some deficiencies, which were supplied later. Untrimmed fuselage shells and canopy were received in October, 1984. All other items were received in September, 1984
Inspected by Jay Scheevel

Cowling halves, spinner received October, 1984.

Tri-Q, main gear nose gear, wheels, brakes and fairings received mid 1985

attn: Juan Garcia ASI

Dear Mr. Garcia;

I have spoken with you a couple of times on the phone concerning my plans to construct a homebuilt aircraft in the near future.

I'm happy to report that I have recieved all materials to construct a Quickie Q-200 aircraft. I have begun initial preparations of the materials but have refrained from beginning actual construction in order to inform you of my intensions and deliver the items that you have requested. These include a bill of sale for the kit (serial number 2868) and polaroid photographs of the raw materials and parts supplied by Quikie Aircraft. In addition I have included copies of all packing slips that I have recieved with the various shipments from Quickie. My intension is to construct the aircraft primarily by my sole efforts in my spare time for education and recreational purposes.

Because the Q-200 is notlisted in AC 20-27C as a kit pre-approved by your engineering department as meeting the 51% construction criteria, I understand you may want to inspect the materials and parts furnished to me. If an inspection will be nescessary, please contact me at your earliest possible convenience as I'm nearing the point when I would like to begin construction in earnest.

If there is anything unclear in the material or photos that I have included, please contact me either at my work phone (915 686-1718) or home (915 683-7592 or 699-6547).

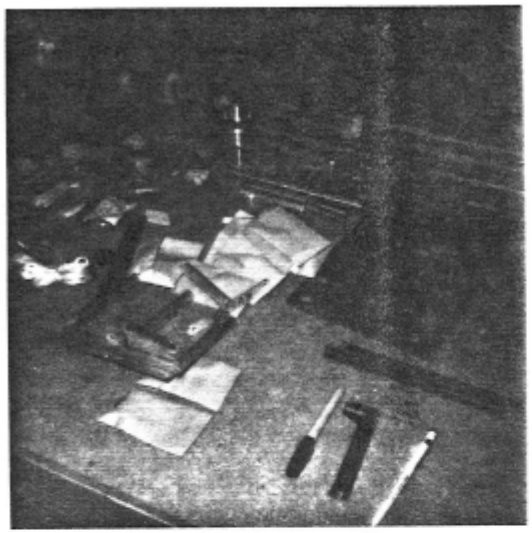

There is one more item that I would like to ask you for information on: I understand that the NTSB investigates all accidents. I'm curious if there is compilation of all accident reports since 1980. I would like to read all that I can about accidents in the type of plane that I"m building in order to avoid similar mistakes in both construction and flight control. This way I can better prepare for my first flight. If there is a publication like this that I could find somewhere, I would appreciate it if you could give me an address where I could write for it.

Thank you for all your assistance. I will wait for your approval before I continue work on my project.

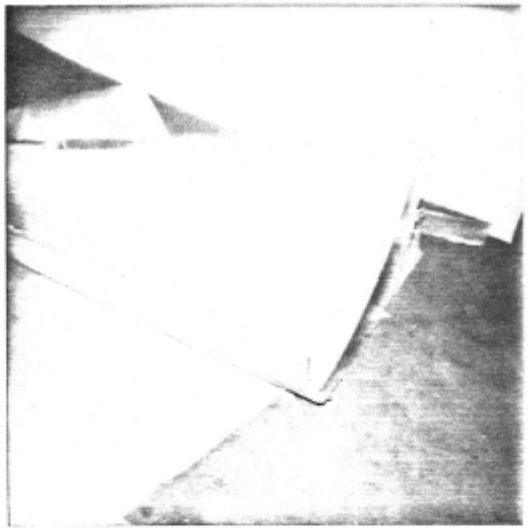

Sincerely,

Jay R. Scheevel

November 15, 1984

Mr. Jay Scheevel
4700 Parkway, #256
Midland, TX 79705

Dear Mr. Scheevel:

This will confirm our telephone conversation of November 14, 1984, that the Q-200 kit referenced in your November 6, 1984, letter is acceptable as an experimental amateur built aircraft.

We are enclosing a copy of Advisory Circular AC 20-27C, for your use. You can obtain data on aircraft accidents from:

National Transportation Safety Board
Safety Studies and Analysis Division
800 Independence Ave S.W.
Washington, D.C. 20594.

You will need to state the information you need in your request, as an example, accidents involving all experimental aircraft - amateur built, by make and model, or those where the causal factor was pilot error or structural failures.

Sincerely,

Lynne D. Covalt
Acting Supervisor
Airworthiness Unit

Enclosures

29 MAY 84

Jay,

Enclosed is the current packing list for 1A & 1B. These 2 packages make up about 75-80% of the airplane. I also enclosed a receipt for the engine purchase. You can also use the cancelled check that you wrote. Package 1A lists for $3895.00. You paid $125 for your plans so I deducted 62.50 from the $3895. I will deduct another $62.50 when you order 1B.

On the paperwork for ordering 1A, please sign where I have put an X. Keep the white copy of the Q-2 Purchase Order. Make the check out to Rocky Mountain Quickie.

Good Luck with your Private Pilot checkride.

Sincerely,

Gary Jones

Quickie Aircraft will also enclose an additional packing list with the stuff you order. Please keep these packing lists, as I made them for you.

May 31, 1984

Jay R. Scheevel
CHEVRON U.S.A. Inc.
P.O. Box 1660
Midland, TX 79702

Dear Mr. Scheevel,

In response to your letter of May 18, 1984. We appreciate your interest in the Q200 and will do our best to answer your questions.

(1). We have an instrument layout and wiring diagram for an IFR panel. The grounding information is included. Sport Aviation often has good information in it dealing with many of the things you mentioned in your letter.

(2). The Q200 was using a portable Terra Com Radio. It now has an Edo Air Com.

(3). The nav antenna can be placed under the skin of the main wing on the top surface. The com antenna can be placed in the verticle fin using the same cooper tape strips and coax cable. The Loran antenna installation has a lot to do with what unit you purchase, but since that can be put in after the plane is built, that is no problem. If you use shielded wires to your strobe lights, they shouldn't interfer with your antennas.

My father wired our airplane and could give you some ideas on what to expect if you want to call him. 513-890-1924 Duane Swing.

If you have any more questions about these things or anything else just give me a call, mention my name, and I will try and answer them for you.

Sincerely,
QUICKIE AIRCRAFT CORP

ROCKY MOUNTAIN QUICKIE SALES AGREEMENT

The QUICKIE Q-2 kit, properly constructed, will reproduce the successful original QUICKIE Q-2 designed and tested by QUICKIE AIRCRAFT CORPORATION. ROCKY MOUNTAIN QUICKIE is not responsible, and makes no warranties, express or implied whatsoever, regarding the structural integrity, performance, flight characteristics, or safety of the BUYER'S completed aircraft and its component parts. ROCKY MOUNTAIN QUICKIE has no control and assumes no control over the BUYER'S ability to successfully construct and test the QUICKIE Q-2 AIRCRAFT. Buyer expressly waives any and all claims arising from structural integrity, performance, flight characteristics, mechanical failures, and safety against ROCKY MOUNTAIN QUICKIE. Buyer acknowledges that the FAA must inspect the aircraft at construction intervals, as well as the completed project, prior to flight and should work with his local FAA representative regarding the construction and licensing of the aircraft.

17 June 1984

Dear Jay,

I"ll try and answer all your questions you have in this letter.

1. I called in your order on June 7. I was told at that time that there was NO items backordered, but because of prior orders it would be 3 weeks before they got your kit out.

2. As SOON as you get your kit inventory it. They will have a packing list in the kit..If any items are missing you are to contact Quickie in Mojave and ask for RON LUNGREN. He handles all shipping orders. Also if you want to check on the exact shipping date contact RON. QAC phone # 805-824-4313

3. When you order package 1B you will recieve a packet of instructions concerning the new canard and how to work with the new spar. It tells you how to put it together and where the canard attaches to the fuselage. In that packet it will also tell about the wheel pants.

4. As far as package 1A and 1B goes; there is NO difference between the Q2 and the Q200.They are built the SAME. There is a difference in Canard location and engine installation. These items will be addressed when you order package 1B and 2.

5. As I mentioned to you on the phone, package 1B goes up in price on August 6th($450). There is NOT a price increase on package #2.

Jay, I appreciate your business very much. I have no doubt that you enjoy both building and flying your Q200.
If there is anything I can do for you please give me a yell. I leave for Lear Jet school on July8 and will be back on the 20th. Hopefully I'll be leaving for Oshkosh shortly after that. If you need to call me either before of after these dates, call after 7PM mountain time, as I am usually home by then.

Sincerly,

Gary R Jones

June 22, 1984

s/n 2868
Jay Scheevel
2402 Whittle Way
Midland, TX 79707

Dear Mr. Scheevel,

As mentioned in Newsletter #23, there will be a substantial price increase on Q2/Q200 package #1A and #1B and Q2 package #2, August 6, 1984.

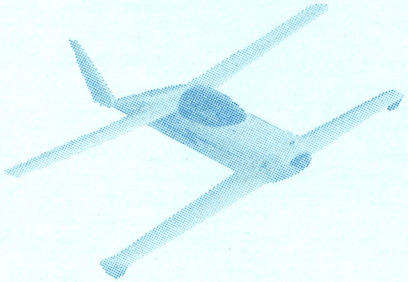

Our records indicate that you have purchased Q2/Q200 package #1A. If you act now, Quickie Aircraft Corp will grant a special discount on the remaining ackages (1B & 2) purchased before the above mentioned date; a savings of $300.00 on the combined purchase of package #1B and Q2 package #2, or a savings of $400.00 on the combined purchase of package #1B and Q200 package #2.

Take advantage of this special offer before August 6th and save $300 to $400 in regards to the current prices or a savings of $850 to $950 in regards to the price after the increase!!

If you have any questions regarding this offer please contact your local dealer or Quickie Aircraft Corp.

Sincerely,

QUICKIE AIRCRAFT CORP.

QUICKIE Q·200 SALES AGREEMENT

SERIAL # 2868

QUICKIE AIRCRAFT CORPORATION sells to the undersigned, for the sum of $3,895.00 one QUICKIE Q·200 PACKAGE 1A, consisting of the following:

Complete plans to construct the QUICKIE Q·200 AIRCRAFT, Q·200 owner's manual, one-year subscription to the Quickie Newsletter, pre-molded fuselage shells, pre-mounted canopy, and raw materials.

QUICKIE AIRCRAFT CORPORATION sells to the undersigned, for the sum of $3,055.00 one QUICKIE Q·200 PACKAGE 1B, consisting of the following:

Wheels, tires, brakes, tail spring, welded components, precision bearing holes drilled, machine parts, other prefabricated components, and raw materials.

QUICKIE AIRCRAFT CORPORATION sells to the undersigned, for the sum of $2,900.00 one QUICKIE Q·200 PACKAGE 2, consisting of the following:

Quickie Q·200 Section II plans, molded cowling, spinner, prop extension, exhaust system, instruments, and miscellaneous materials.

Upon receipt of this order and purchase price, buyer will be notified of delivery date and sent a copy of this sales agreement. An estimated advance delivery date can be obtained by prior phone communication if desired. Buyer pays all shipping cost freight collect in addition to the purchase price.

At QUICKIE AIRCRAFT CORPORATION'S sale option, QUICKIE AIRCRAFT CORPORATION may refund the full purchase price at any time to Buyer prior to shipping and will then be relieved of further obligation. Prices, terms, and conditions may be changed at any time prior to the acceptance of the full purchase price by QUICKIE AIRCRAFT CORPORATION. QUICKIE AIRCRAFT CORPORATION makes no warranty or representation as to the availability of the engines. Q·200 packages and accessories not ordered and paid for at the initial purchase may be subject to price increases if ordered at a later time.

The QUICKIE Q·200 kit, properly constructed, will reproduce the successful original QUICKIE Q·200 designed, and tested by QUICKIE AIRCRAFT CORPORATION. QUICKIE AIRCRAFT CORPORATION is not responsible, and makes no warranties, express or implied whatsoever, regarding the structural integrity, performance, flight characteristics, or safety of the Buyer's completed aircraft and its component parts. QUICKIE AIRCRAFT CORPORATION has no control and assumes no control over the Buyer's ability to successfully construct and test the QUICKIE Q·200 AIRCRAFT. Buyer expressly waives any and all claims arising from structural integrity, performance, flight characteristics, mechanical failures, and safety against QUICKIE AIRCRAFT CORPORATION. Buyer acknowledges awareness of the risks of flying a homebuilt aircraft. Buyer acknowledges that the FAA must inspect the aircraft at construction intervals, as well as the completed project, prior to flight and should work with his local FAA representative regarding the construction and licensing of the aircraft.

QUICKIE AIRCRAFT CORPORATION reserves the right to make recommended revisions in the plans and construction of the aircraft at any time without liability to QUICKIE AIRCRAFT CORPORATION, as such revisions or changes may be deemed advisable from time to time.

To whom it may concern:

Enclosed is a check to cover the cost of order #'s kits 18 and 2 for the Quickie Q-200. As your records will show I have already purchased kit 14 for the Q-200 but as yet it has not been shipped. The serial number assigned to my kit is 2868. The enclosed check is in the amount of $5555.00 in accordance with the published prices of $3055.00 and $2900.00 respectively for kits 18 and 2. In addition I have subtracted the $450.00 discount offered to me in your letter of June 22, 1984 (copy enclosed).

Please place my order for the additional kits and send me a receipt and anticipated shipping date on all kits. Thank you very much

Sincerely,

Jay Scheevel

quickie

Dear Builder,

We are making preparations for shipping your Q-2 aircraft kit. In order to form a good working relationship with our builders and to avoid delays in your building process, we ask that you inventory the contents of each shipment within thirty (30) days of receipt of shipment. Send to Quickie Aircraft Corporation a written list of all items marked as back-ordered and any item you find missing for each shipment. Keep a copy of your list.

Enclosed is a full set of packing lists for each section of the Q-2 kit. They are detailed as follows:

Package #1A - Airframe Kit	Packing List 1A
Package #1B - Foam & Hardware Kit	Packing Lists 1B, 3A & 4A
Package #2 - Engine Installation Kit	Packing Lists 5 & 6
Package #3 - Revmaster Engine	Packing List 7

Please use these lists to carefully check off the contents of each box. Those builders installing a engine other than the Revmaster will need the elevator mass balancing kit which is included in Packing List #7. You may call one of the numbers listed below or write Quickie Aircraft when your elevators have been painted, this kit will be supplied without further cost to you at that time.

Our office is open from 9:00 AM to 5:00 PM Tuesday through Saturday. We are open for backorder calls from 1:00 to 4:30 PM Tuesday, Thursday, and Friday. Our builder hot line is to be used for technical questions concerning the actual building of the Q-2 kit only. This line is answered from 1:00 PM to 4:30 PM Tuesday through Friday (PST) and Saturday from 1:00 PM to 4:00 PM. Our numbers are as follows:

(805) 824-4313 General Information & Backorders
824-4626 General Information & Backorders
824-4133 Builder Hotline

Thank you for your assistance in this portion of your building process. We look forward to an excellent working relationship.

Sincerely,
QUICKIE AIRCRAFT CORP.

Ron Lundgren

RE: Your 10-5-84 letter.

Dear Mr. Scheevel,

Your new canard was shipped to you on 10-2-84 on Consolidated Freightways. If you haven't yet received the shipment, please let know as soon as possible.

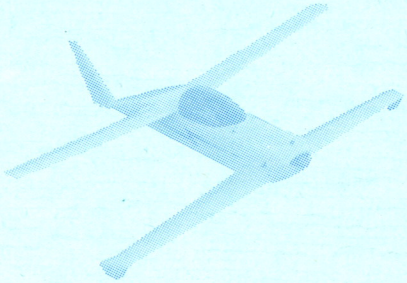

I will ship you the missing tailspring ASAP and the airspeed and altimeter as soon as we have them in stock.

The Q200 Pilots Manuals are currently on order and we will send you one as soon as we receive them.

If you have any other questions or problems, please let us know.

Regards,
QUICKIE AIRCRAFT CORP

Route 3, Box 51
Lubbock, Texas 79401
attn: Juan Garcia ASI

Dear Mr. Garcia;

I have spoken with you a couple of times on the phone concerning my plans to construct a homebuilt aircraft in the near future.

I'm happy to report that I have recieved all materials to construct a Quickie Q-200 aircraft. I have begun initial preparations of the materials but have refrained from beginning actual construction in order to inform you of my intensions and deliver the items that you have requested. These include a bill of sale for the kit (serial number 2868) and polaroid photographs of the raw materials and parts supplied by Quikie Aircraft. In addition I have included copies of all packing slips that I have recieved with the various shipments from Quickie. My intension is to construct the aircraft primarily by my sole efforts in my spare time for education and recreational purposes.

Because the Q-200 is notlisted in AC 20-27C as a kit pre-approved by your engineering department as meeting the 51% construction criteria, I understand you may want to inspect the materials and parts furnished to me. If an inspection will be nescessary, please contact me at your earliest possible convenience as I'm nearing the point when I would like to begin construction in earnest.

If there is anything unclear in the material or photos that I have included, please contact me either at my work phone (915 686-1718) or home (915 683-7592 or 699-6547).

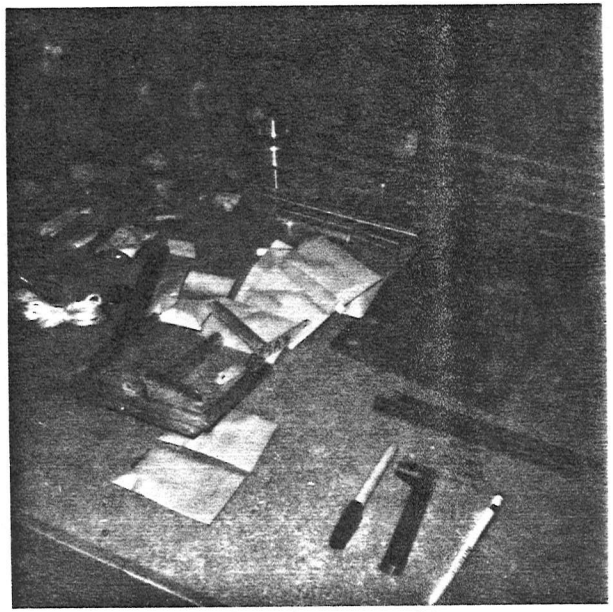

There is one more item that I would like to ask you for information on: I understand that the NTSB investigates all accidents. I'm curious if there is compilation of all accident reports since 1980. I would like to read all that I can about accidents in the type of plane that I"m building in order to avoid similar mistakes in both construction and flight control. This way I can better prepare for my first flight. If there is a publication like this that I could find somewhere, I would appreciate it if you could give me an address where I could write for it.

Thank you for all your assistance. I will wait for your approval before I continue work on my project.

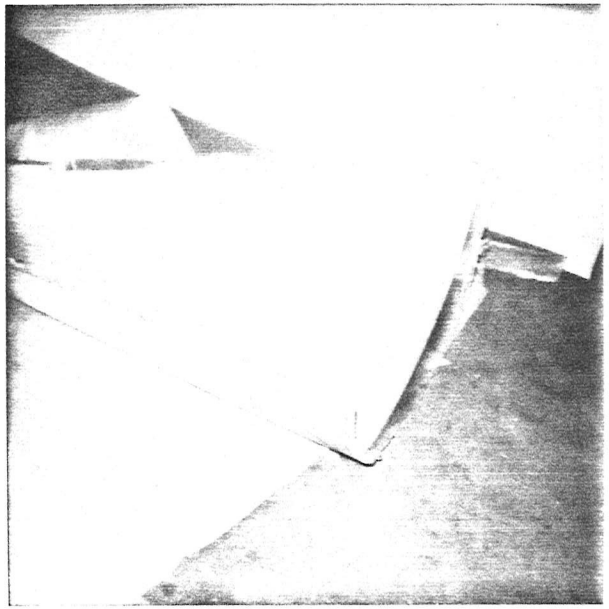

Sincerely,

Jay R Scheevel

November 15, 1984

Mr. Jay Scheevel
4700 Parkway, #256
Midland, TX 79705

Dear Mr. Scheevel:

This will confirm our telephone conversation of November 14, 1984, that the Q-200 kit referenced in your November 6, 1984, letter is acceptable as an experimental amateur built aircraft.

We are enclosing a copy of Advisory Circular AC 20-27C, for your use. You can obtain data on aircraft accidents from:

National Transportation Safety Board
Safety Studies and Analysis Division
800 Independence Ave S.W.
Washington, D.C. 20594.

You will need to state the information you need in your request, as an example, accidents involving all experimental aircraft - amateur built, by make and model, or those where the causal factor was pilot error or structural failures.

Sincerely,

Lynne D. Covalt
Acting Supervisor
Airworthiness Unit

Dear Builder,

The following information is in regards to your order for the Belly Board.

First, I am sorry for the delay in your order for the Belly Board. This was due to circumstances beyond our control.

We are now back in business and ready to deliver options and other items. If you still wish to order the Belly Board, we will have this within two weeks with no backorders. We have the plans in stock and are waiting for the parts. Since the price of the Belly Board did increase to $205.00 and you had placed your order sometime ago we will still honor the price of $175.00.

Please note that we have not cashed your previous check and still have it on file. If you wish to order the Belly Board and have not put a stop payment on your check we can still put the check through. If a stop payment has been issued and you still wish to order the Belly Board you may issue a new check. Please note that if you wish to put this on a charge card, I will not put it through until the parts are in and ready to be shipped within a few days. Please include your card number and expiration date if you wish to do this.

Please let me know if you are still interested in purchasing the Belly Board as soon as possible, so that we may put you on the list.

Sincerely,
QUICKIE AIRCRAFT CORP

Dear Mr. Scheevel,

The following information is in regards to your letter dated May 27, 1985.

Please find enclosed the pictoral plans addendum and a copy of newsletter #22 as you had requested.

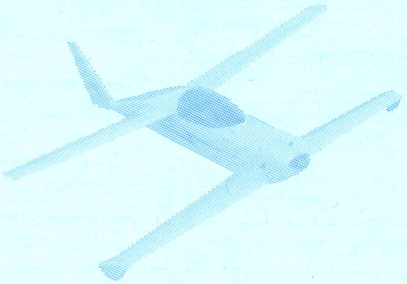

Please also find enclosed two copies each showing one Q2CSA8. One was shipped on 8-20-84 on Packing slip No 4A Package 1 and the other one on packing list #13 new canard on 10-2-84. Please note that there is a UPS stamp for the backordered one shipped to you on 8-20-84. You must use the old Q2CSA8 out of the old canard.

If you have any questions regarding this please let me know.

Sincerely,
QUICKIE AIRCRAFT CORP

TRI Q CONVERSION PACKAGE

Q2 or Q200

* PRE-MOLDED MAIN GEAR
* PRE-FAB NOSE GEAR
* ALUMINUM AXLES
* ROSENHAN 5" WHEELS
* ROSENHAN BRAKES
* PRE-MOLDED FAIRINGS
* PRE-MOLDED WHEEL COVERS
* HARDWARE PACKAGE
* LAMB TIRES & TUBES MAIN
* McCREARY TIRE & TUBE NOSE
* PRE-FAB TOE BRAKES
* INSTRUCTIONS, PICTURES, ETC.

PACKAGE PRICE 1600.00

FOB DAYTON, OH

THE TRI Q WAS DEVELOPED AS A RESULT OF A LARGE NUMBER OF GROUND HANDLING RELATED INCIDENTS CAUSING MINOR TO MAJOR DAMAGE TO THE Q2/Q200. WITH THE TRI Q, GROUND HANDLING IS IMPROVED DRAMATICALLY, VISION IMPROVED DUE TO THE NEAR LEVEL ATTITUDE OF THE COCKPIT, AND LANDING DISTANCES REDUCED SUBSTANTIALLY AS A RESULT OF ADDED BRAKE EFFICIENCY.

INSTALLATION IS SIMPLIFIED BY PROVIDING PRE-MOLDED COMPONENTS WHEREVER POSSIBLE. BUILDING TIME WILL VARY DEPENDING ON PRESENT STAGE OF COMPLETION OF YOUR Q2/Q200, BUILDING EXPERIENCE LEVEL, AVAILABILITY OF TIME SAVING TOOLS, ETC. TYPICALLY 100 TO 150 HOURS WOULD BE CONSIDERED ADEQUATE.

ADVANTAGES:

IMPROVED GROUND HANDLING

REDUCED LANDING ROLL

TIGHTER TURN RADIUS

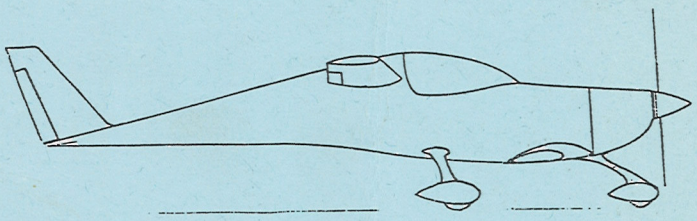

EASIER ENTRY-EXIT

BETTER GROUND VISABILITY

HIGHER RESALE VALUE

Dear Mr. Scheevel:

I have estimated a shipping date on the Tri Q kits starting on June 3. I will need to have the balance of $1,100 prior to this date ($1,135 if optional drag brake ordered).

I have also enclosed a release of liability which should be signed and returned with your check. I believe you can understand why this release is being used.

If you have any questions, please don't hesitate to ask.

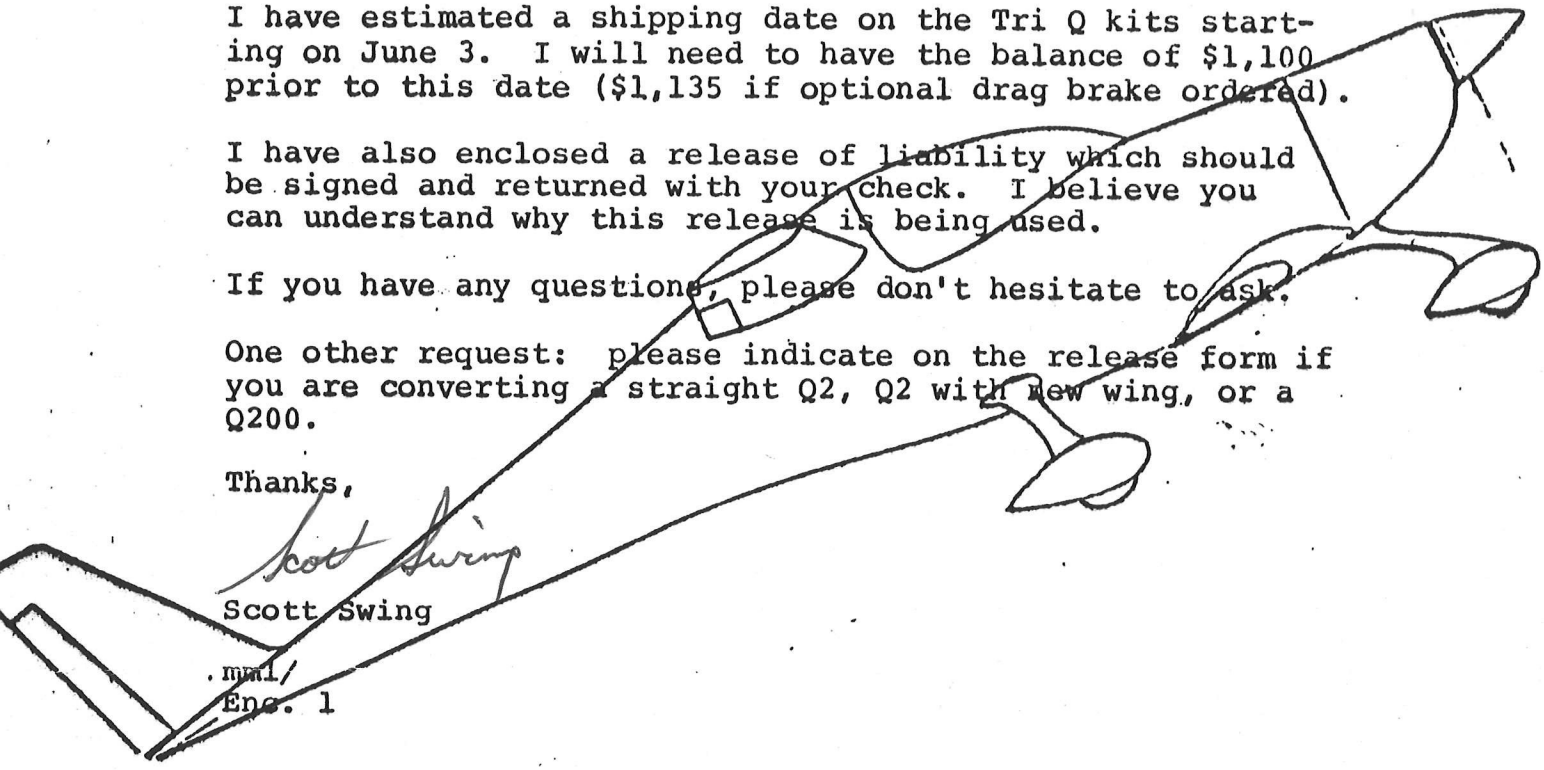

One other request: please indicate on the release form if you are converting a straight Q2, Q2 with new wing, or a Q200.

Thanks,

Scott Swing

June 1, 1985

Dear Scott,

Enclosed is the remainder ($1135.00) of the payment required for my tri-gear conversion kit. Also included are the nescessary release forms.

Please note that I have shown on the release form that I will be modifying a Q-200 kit. Note also that I have included the $35 for the speed brake conversion.

It is important that you contact me immediately before shipping my kit as I will probably be moving soon and may need to give you an updated shipping address. Depending on how you decide to ship, it may be better to have me pick the kit up at the shipper's terminal on this end.

Sincerely,

Jay R Scheevel

RELEASE OF LIABILITY

THIS AGREEMENT is made this 1st day of JUNE, 1985, between Tri Q Development, Inc., an Ohio corporation, (Seller) and _____ JAY R. SCHEEVEL (Buyer).

WHEREAS the Seller is the manufacturer of an aircraft tri gear, speed brake and wing extension (kits) which are experimental devices and which have not been approved by the FAA, and

WHEREAS the buyer is the builder or operator of amateur or experimental aircraft, and

WHEREAS it is the Buyer's intention to carry out flight test evaluations of the kits, and

WHEREAS Buyer understands and appreciates the experimental nature of the kits and that Seller has no control over Buyer's application or use of said kits, and

WHEREAS Buyer is in the unique position to determine the adequacy of the kits as a conversion system for his aircraft, and

WHEREAS Buyer relies solely on his own skill and judgment, in the evaluation of the kits, and is solely responsible for its use, NOW, THEREFORE,

In consideration of the convenants and conditions stated, Buyer agrees to hold Seller harmless and indemnify Seller as follows:

1. Buyer agrees to hold Seller harmless from, and Buyer hereby assumes the entire responsibility and liability for, any and all damage or injury of any kind or nature whatever, including death, as to all persons, whether Buyer's employees, agents, or otherwise, and as to all property, including Buyer's own property, caused by, resulting from, arising out of, or occurring in connection with, the use by Buyer himself or any other person, of the Kits.

2. If any person shall make a claim for any damage or injury, including death, whether based upon Seller's alleged active or passive negligence, or based upon principles of product liability, or based upon any alleged breach of any statutory/contractual or common law duty or obligation Seller may have, Buyer shall indemnify and save harmless Seller, its agents, servants, and employees, from and against any and all loss, expense, damage or injury that Seller may sustain as a result of any such claim.

Dated this _____ day of _____, 198___.

Jay R. Scheevel
2402 Whittle Way
Midland, TX 79707

Dear Jay:

Thanks for your interest in our Tri Q package. The enclosed literature was made up for the Sun 'N' Fun bash and isn't extremely detailed. I can report, however, that our flight testing is now complete and ground handling problems should now be a thing of the past. Take-off and landings are as conventional as in a Grumman type airplane. Main gear is made up of a one-piece S glass molded unit and the nose gear is a bolt-on heat treated steel full swivel unit.

We have established a price of $1,600 for the first 25 kits. After the 25 we will evaluate our actual cost and make adjustments upward. Present estimates indicate a probable eight to ten percent increase due to outside vendor expenses of the main gear legs and nose gear assembly.

We have also included an optional speed brake kit, utilizing the 6"x24" piece removed to insert the main gear as the hinged brake. Rate of descent increased by 50% in the full 40° down position. Spot landings are much easier as the airplane will not float as it did in the past. This option will add another $35.

More information will be available later and will include prices on our long wing extensions for the Q2/Q200. Flight tests to date indicate an increase in rate of climb of about 20%, altitude cruise increase of five MPH and pitch buck speed decrease of ten MPH. Short field landings have been made into a ten MPH wind with normal braking in under 600 feet. The extensions will be pre-molded and will attach by glassing onto the existing wing tips.

We are now accepting a $500 refundable deposit for those who want one of the early kits. Delivery will start within 45 days.

If I can be of any other service, please feel free to write or call.

Very truly yours,

Scott Swing
